DETAILED ACTION

Claims 5-7, 13 and 17-19 are pending in the present application.

Response to Amendment

Claims 18 and 19 stand rejected under the written description requirement of 35 U.S.C. 112, first paragraph for the reasons already of record and those set forth below in response to Applicant's arguments filed 28 July 2005.

Any rejections not repeated herein are withdrawn.

Response to Arguments

Claims 18 and 19 stand rejected under the written description requirement of 35 U.S.C. 112, first paragraph for the reasons already of record and those set forth below in response to Applicant's arguments filed 28 July 2005.

With regard to the rejection of claims 18 and 19, Applicant has amended the claims to recite that the amino acid sequence has at least 90% amino acid sequence identity to SEQ ID NO:2. Although Applicant has amended the claim to higher degree of identity, the claim is still drawn to a broad genus such that one of skill in the art would not reasonably conclude that Applicant had possession of the genus claimed for the reasons already of record. The Applicant still has not disclosed a structure-function relationship between sequences having 90% amino acid identity and at least a contiguous sequence of 25 amino or 50 amino acids as recited claims 18 and 19, respectively. The contiguous sequence can be over any portion of the whole of SEQ ID NO:2. The question remains as to what domains confer the requisite function. Therefore, one of skill

Art Unit: 1636

in the art could not reasonably conclude that Applicant had possession of the claimed invention.

Allowable Subject Matter

Claims 5-7, 13 and 17 allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
